ABOUT ME 🌟

As a QA Automation Tester with three years of experience in testing web and mobile applications, I bring a strong foundation in TypeScript and JavaScript, along with expertise in test automation frameworks such as Playwright, WebdriverIO, and Cypress. My skill set extends to leveraging tools like GitHub Actions and encompasses a broad range of testing practices, including functional testing, mobile testing (iOS and Android), API testing, and game testing.

EXPERIENCE 🏢

Eastern Group, Bangladesh — Software Developer in Test
JULY 2023 - AUGUST 2024

SCRUM team collaboration, Maintaining AQA structure, maintaining large scaled automation repository, generating E2E tests proactively, running pipelines regularly, pair programming, knowledge transfer, evaluating all tests periodically, gathering/discussing valuable test artifact(s) are some of my key responsibilities in this position.

Genex, Bangladesh — QA Automation Tester
FEBRUARY 2021 - JUNE 2023

Security procedures, Policy adherence, Test design, Mentoring, Task completion, Best practices, Line management, Staff evaluation, Client communication, duties & Time monitoring were some of my key responsibilities in this position.

North South, Bangladesh — Functional Tester
APRIL 2019 - JANUARY 2021

Project management, Workflow integration, Leadership, Team management, Communication, Feedback, Performance evaluation were some of my key responsibilities in this position.

EDUCATION 🎓

WSB University, Poland — Management Engineering
JANUARY 2022 - PRESENT

Comprehensive knowledge in Management Engineering, emphasizing process optimization, project coordination, and data-driven decision-making to enhance QA automation strategies.

SPECIALIZATION ♟️

- Creating customized test plans, test strategies, test cases, and bug reports
- Covering various testing types: Smoke, Sanity, Exploratory, Functional, System, Regression Testing
- Manual testing with tools such as Jira and Azure DevOps
- Working with databases: PostgreSQL
- Implementing automation with tools like Playwright and BDD frameworks
- Conducting Load/Performance Testing using JMeter
- Testing APIs with Postman

SKILLS 💻

Functional Testing
Mobile Testing
Regression Testing
Integration Testing
Usability Testing
Security Testing
API Testing
Performance Testing
Load Testing/Stress Testing (Jmeter)
Creating test plans and test cases
Web Content Accessibility Guidelines (WCAG)
Cross-Browsing Testing
Test Automation Framework
Testing Fundamentals
Agile Fundamentals (SCRUM)
CI/CD Fundamentals

TECH STACK ⚙️

PROGRAMMING LANGUAGES
JavaScript/TypeScript

TESTING
Playwright (NodeJs)
Cypress (NodeJs)
Webdriver (NodeJs)
Lighthouse (Accessibility Testing Tool)

TOOLS
GIT
JENKINS
BASH
POSTMAN
DOCKER
AZURE
DEVOPS
JIRA
JMeter

LANGUAGES 🗣️

English - C1 (Proficient) 🇺🇸
Bangla - Native 🇧🇩
